

ICRC

Rinse Free Self-Foaming Bath Mittens

Clean in 4-Simple Steps

Water activated for full or partial bath when conventional bath is not convenient. For normal, dry to sensitive skin.

Homeless Shelters – Evacuation Shelters – Skilled and Assisted Living Facilities, Acute Care Facilities - Camping – Travel – Hospitals – Veteran’s Homes

The solution when water is scarce and cleanliness is mandatory. From medical needs to safe shelter environments to personal hygiene, the SHOWERZ™ mitten meets all these needs and doesn't waste your precious water resources. Eliminates the need for portable showers at shelters where water and the management of the waste water are chronic issues for emergency managers. One mitten and one already in place fixed or portable restrooms solves your bathing needs.

The American Association of Critical-Care Nurses has issued a practice alert that encourages the use of “prepackaged cleansers that do not require rinsing”. “Current evidence tells us that even such a routine activity as bathing a bed-bound patient needs to be updated to reduce the risk and increase the benefit to the patient,” Ramón Lavandero, RN, MA, MSN, FAAN, senior director of the AACN, said in the news release.

Bulk Pack Notes

(custom bulk/other available to your spec)

- 250 mittens/bag - approx. 13#
- 3 bags/carton - 750 mittens
- Carton dimensions 19" X 19" X 23" - approx. 45#
